

# aCart™ Plus

## DATASHEET

### Designed for stability and convenience

For teams who perform procedures in the endoscopy suite, the aCart Plus workstation is designed for storage and convenience.

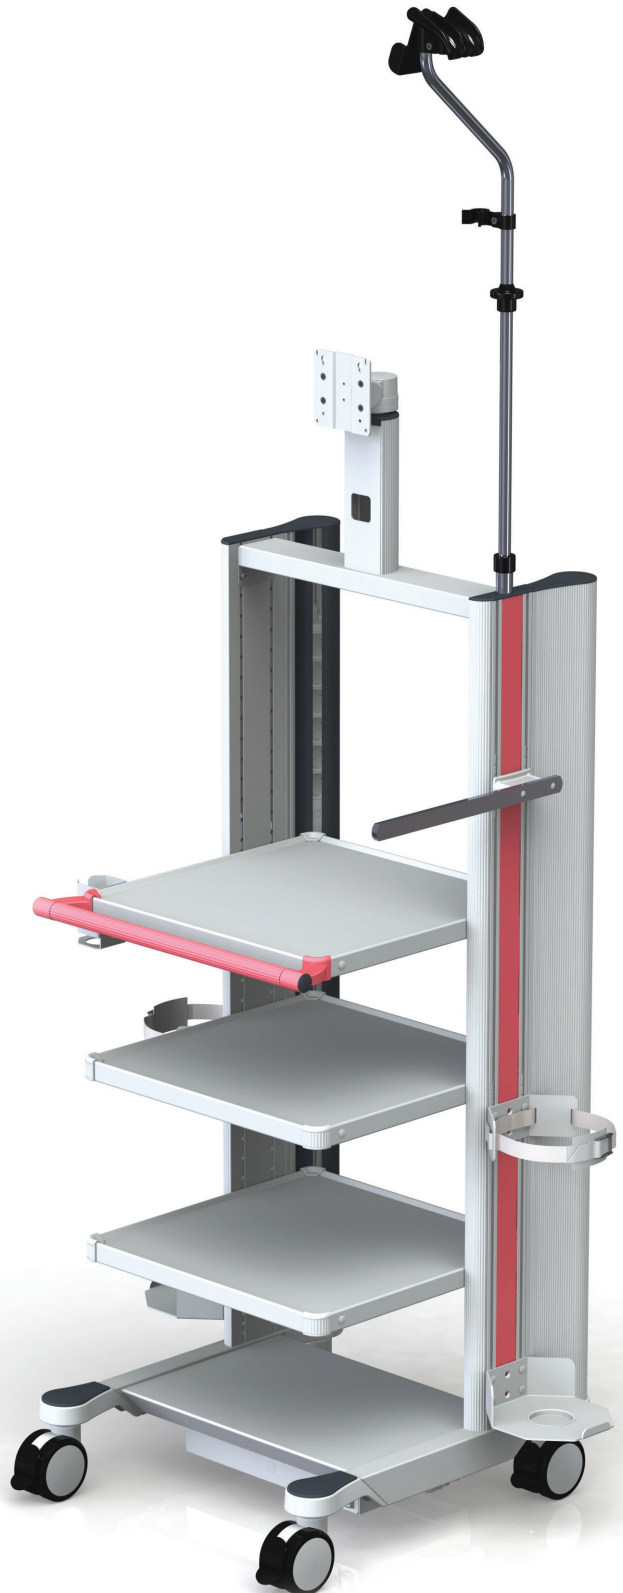

### Robust and efficient

The robust design makes the aCart Plus workstation durable enough to meet the demands of everyday use. The materials and surface finishes are high quality.

### Everything is within reach

The smart layout of the cart puts the tools you need within reach with:

- Ample shelf space for medical devices
- Medical rail for attachable accessories
- Sterile water bottle and CO<sub>2</sub> cylinder holders
- VESA mount for up to 32" monitor
- Scope holder for single-use endoscopes that have been prepared for use and that are in use
- Two cable ducts for efficient cable management
